## Senior .NET Developer

### Description

We are looking for a seasoned Senior .NET Developer to join our software development team. The candidate will be responsible for developing high-quality applications, analyzing system requirements, and collaborating with team members to produce efficient, scalable software solutions.

### Responsibilities

- Develop, test, and maintain .NET applications using C#, ASP.NET, and related technologies.
- Participate in the full software development lifecycle.
- Collaborate with internal teams to produce software design and architecture.
- Write clean, scalable code and maintain documentation.
- Improve existing software and fix bugs.
- Lead code reviews and mentor junior developers.
- Stay current with industry trends and incorporate best practices.

### Qualifications

- Bachelor's degree in computer science, Engineering, or a related field.
- 6-10 years of experience in .NET development.
- Strong proficiency in C#, ASP.NET, MVC, and .NET Core.
- Experience with front-end frameworks like Angular or React is a plus.
- Proficient in SQL and experience with databases like SQL Server.
- Knowledge of RESTful APIs and web services.
- Familiarity with Agile methodologies.
- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal skills
